1. A (12.5, 8.5)
   B (10.25, 12.5)
   C (9.5, 15)
   D (7.5, 15)
   E (4.75, 12.5)
   F (2.5, 9.5)

2. angle = arctan (y/x)

   angle A = arctan (8.5/12.5) = 34 degrees
   angle B = arctan (12.5/10.5) = 50 degrees
   angle C = arctan (15/9.5) = 58 degrees
   angle D = arctan (15/7.5) = 63 degrees
   angle E = arctan (12.5/4.75) = 69 degrees
   angle F = arctan (9.5/2.5) = 75 degrees

3. As compared to 33, 51, 57, 63, 69, 75 degrees, these results are most remarkable for ancient biblical people whose ziggurat at Ur, or Tower of Babel, was not confounded in math, only in speech.
